

Emulsifier for Blanket Cleaners VP 9266

- with corrosion inhibitor -

Approved for Baldwin and Baldwin/KBA washing units (see KBA List of Approved Products)

Characteristics:

Emulsifier for Blanket Cleaners VP 9266 supports the emulsive quality of all types of cleaning agents used on automatic blanket washers and for cleaning by hand, which are hardly or not at all water miscible.

Due to its high water miscibility it prevents build up of paper dust.

Dosage:

Add 3 - 10 % of **Emulsifier for Blanket Cleaners VP 9266** to the cleaning agent.

Packing:

Cans of 10 and 25 l

Drums of 125 l and 210 l

The specifications given in this brochure are based on laboratory tests and practical experience. All specifications are to the best of our knowledge and reflect the latest state of the art, however, this does not imply any liability.
